

# Year 9 Science Home Learning

Here's the next few weeks of home learning for science. Either scan the QR code opposite, or type in the URL underneath.

Each week focuses solely on one topic. Complete no more than 3 hours a week per topic. Complete the knowledge mats using the knowledge organisers. Check your answers before moving on as these are also attached at the end of the documents. For challenge, don't use the knowledge organiser to begin with. Choose 2 exam questions to complete, and again, check the mark scheme and mark your work before you send to your teacher for checking.

Please complete just the ONE task set for that week. You then have until the end of the following week to send it to your science teacher. Should you have any questions, please ask your science teacher.
