

Year 7 Science Home Learning

Here's the next few weeks of home learning for science. Either scan the QR code opposite, or type in the URL underneath.

For each week, complete the task on the relevant pages. There are lots of steps to complete and if you are stuck, there's guidance at the end of the task about how to layout your work.

Please complete just the ONE task set for that week. You then have until the end of the following week to send it to your science teacher.

Should you have any questions, please ask your science teacher.
